

English

A mysterious boat has sailed into our classroom... It will guide us to imaginary places near and far!

The texts we will read this half term are all linked to islands and the ocean. We will also examine some well-known poetry titles like the 'The Owl and the Pussycat'.

Linking to our reading, in writing sessions we will create new stories, write letters, describe settings and characters and finish by writing reports.

Spelling, punctuation and grammar work will focus on different sentence types and the related punctuation (.,!?), use of the correct tense, plurals and revise when to use apostrophes.

Phonics will continue daily and we will look at using our syllable knowledge to help with spelling longer words. We will continue to look at alternative ways of spelling the same sound.

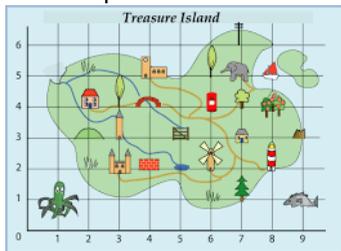

Maths

This half term we will continue working on calculating using all four operations. We will develop both our mental and written calculations. Addition, subtraction, multiplication and division problem solving will be worked upon. Some of these tasks will be linked to money and measures work.

FAST maths focus on inverse relationship between addition and subtraction and then multiplication and division.

Position and direction work will be directly linked to our map work in topic.

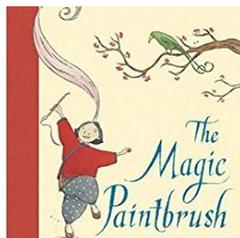

Summer Term 1 Class Two

Topic Name Enchanted Islands

Class Books

The Magic Paintbrush
retold by Julia Donaldson
Where the Wild Things are
by Maurice Sendak
Katie Morag Stories
by Mairie Hedderwick

Topic

We will discover imaginary and real islands this term. On our learning journey we will use maps and globes to talk about our amazing world. We will locate continents, oceans and countries of interest. We will use our senses and discuss physical and human features of a place. We will make maps with keys and locate places using points of the compass and grid references.

Towards the end of the term we will study the Island of Coll (a small Scottish Island). With our knowledge we will produce information to encourage tourists to visit!

Science

In science we will look at plants, and complete different investigations to explore germination as well as the best ways to keep plants healthy.

We will start off by looking at a range of seeds and learn how they disperse. We will design new seeds using this knowledge.

We will take care of our class herb garden and grow beans in a plastic bag. Finally we will grow a crop of cress and pea shoots ready to be added to home-made sandwiches. We will finish the half term off with a lovely picnic on the top field.

RE

In RE we will discover what is meant by Gospel. We will learn that Jesus offered friendship, forgiveness and peace. We will think about how these three offers are 'good news'. Our work will be presented in different ways through drama, writing and art.

Art and D&T

We will explore the works of Van Gogh and use his techniques to produce seascapes. We will experiment with different media to create collage pieces and learn about shape, layering and texture.

Music

Our theme in music is friendship which links to PSHE and Relationships. We will listen to songs on this theme, learn them and perform them with our voices and instruments. We will appreciate well known songs by

Computing

This term we are learning how to research safely and responsibly online. We will navigate specific websites to develop our knowledge about animals and their habitats linked to our work in Science, English and Geography.

PSHE

We will look at healthy relationships this term and explore emotions in a range of scenarios. We will continue to be feeling detectives and help one another to solve everyday problems.

PE

In PE lessons we will develop the fundamental skills to strengthen core strength, balance and accuracy through multi-skills activities. Outdoor kits with trainers or plimsolls are needed.

	Bruno Mars, Elton John and Stevie Wonder.
