

## English

In our phonics lessons the children will continue to develop their knowledge of the sounds letters and groups of letters make. Phonic skills will be applied to read and write sentences.

The children will be listening to stories and poems about mini beasts. They will use the Telling Tales Tool Kit to create their own stories using the resources inside and outside.

The children will be refining and developing neat legible handwriting.

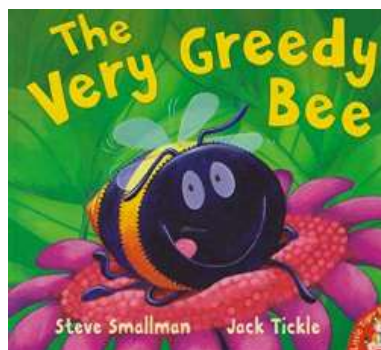

## Maths

During maths lessons the children will be reading, writing and ordering numbers to 20 and beyond. They will be using the "tens" frames to find out what each digit represents in a two digit number. The children will be solving simple number problems, explaining their ideas and thinking of ways to record. The children will be doubling and halving sets of objects. They will count on and back on a number line to add and subtract.

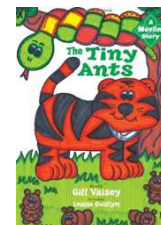

## Summer Term 2 Class - Reception **Topic-Are all Mini Beasts Scary?** **Class Book- The Greedy Bee.**

## RE

During our Religious Education lessons the children will be finding out about the story of Creation. They will be listening to a traditional Muslim story called The Tiny Ants which explores caring for all the creatures in our world from the tiny ant to the mighty tiger. The children will be finding out about miracles that Jesus performed.

## The World

The children will be observing the changes to the plants and trees in the Reception outdoor area through the summer months. During our outdoor learning time the children will be carefully finding and recording the different types of minibeasts that live in the outdoor learning area. The children will be using books and charts to find out information about the different minibeasts observed.

## Art and D&T

The children will have opportunities to design and make different mini beasts from junk modelling materials. The children will be able to work on large and small scale projects. The children will also develop their painting and drawing skills through making representations of ladybirds, bees and spiders.

## Music

The children will be learning songs about different mini beasts. They will use simple instruments to accompany the music and tap out the rhythm. The children will have opportunities to create their own mini beast music using the computer and simple unturned instruments.

## Computing

Using the 2Simple software the children will be drawing pictures of different mini beasts, writing lists and sentences. There will be opportunities to program the Bee Bot robots. The children will learn how to make the Bee Bots move forwards, backwards and make turns.

## PSHE

During our circle time activities the children will explore our school values. The children will be thinking about ways in which we can work together and cooperate during different activities. The children will be preparing for their move to Class One. There will be opportunities to visit the Year One classroom.

## PE

During PE lessons the children will be learning to throw and catch balls with accuracy. The children will be learning to work together as part of a small team, concentrating on the ball and anticipating what to do next. After PE lessons the children will be thinking about how their bodies have changed after exercise.
